Subject: Information Security Management Systems (ISMS) Training Workshop

Dear Sir/Madam,

Greetings!

We are pleased to introduce our new training course: “**Introduction to Information Security Management System (ISMS)**” — designed to provide regular awareness sessions that keep your employees informed on emerging threats, evolving security policies, and best practices. This ensures they stay vigilant and up-to-date in a rapidly changing risk environment.

Overview

Employee awareness is crucial in protecting sensitive data, mitigating risks, and ensuring compliance with standards such as ISO, NIST, PCI-DSS, as well as regulations like the Philippines' Data Privacy Act of 2012 and the GDPR. As employees handle critical data daily — including customer information, intellectual property, and financial records — proper training on secure data handling, communication practices, and breach prevention is essential.

Security breaches can severely impact an organization's reputation. Investing in employee training shows a strong commitment to data protection and helps maintain customer trust, even during security incidents.

Promoting a culture of security awareness encourages shared responsibility across the organization. When employees understand their role in protecting information, they become proactive defenders of data security, helping to enhance the organization's overall security posture.

TRAINING COURSE OUTLINE

Course Title	Introduction to ISMS (Information Security Management System)	
Training Days	2 days – online (through Zoom)	
Approach	Online learning/teaching with activities applicable for individual or group.	
Target Audience	All employees of an organization, regardless of position or rank.	
Training Category	Technical, Supervisory or Managerial	
Training Modules		
Day 1 – 7.5 hours	Day 2 – 7.5 hours	
<ul style="list-style-type: none">➤ Fundamental Principles of Information Security➤ ISMS Standards, Concepts & Techniques➤ Introduction to ISMS Risk Assessment	<ul style="list-style-type: none">➤ Policies for Information Security➤ ISMS Metrics➤ ISMS Internal Audit	

YISRAEL SOLUTIONS AND TRAINING CENTER, INC.

Training Objectives

- A. Understand the components and operation of an Information Security Management System (ISMS) based on ISO 27001 and its core processes.
- B. Develop the capability to protect the organization's assets, data, and financial resources against potential security threats.
- C. Minimize the risk of security incidents by understanding the concepts, approaches, standards, and methods for implementing an ISMS.

Benefits

- ✓ Employees are often the first line of defense against cyber threats such as phishing attacks, malware, and social engineering. Their awareness and vigilance can prevent security incidents before they occur, significantly reducing the organization's exposure to risk.
- ✓ Regular awareness training keeps employees informed about emerging threats, updated security policies, and best practices — ensuring they remain up-to-date and alert in the face of evolving risks.
- ✓ Implementing and maintaining ISMS and achieving regulatory compliance can lead to long-term cost savings

ZOOM ONLINE SCHEDULES FOR THE YEAR 2025

March 23 – 24, 2026

April 7 – 8, 2026

PROMO ALERT! PROMO ALERT! PROMO ALERT!

REGISTRATION FEE:

1 - 2 Participants

4,500.00 per Participant for two (2) days.

3 & more Participants

4,000.00 per Participant for two (2) days.
