Dear **ALL REGIONAL DIRECTORS, ALL SCHOOLS DIVISION SUPERINTENDENTS, ALL PUBLIC ELEMENTARY AND SECONDARY SCHOOL HEADS and ALL DIVISION ENGINEERS,**

Consistent with the Department of Education's commitment to modernize educational management through data-driven decision-making, and following the successful conclusion of its pilot testing phase, the Human Resource and Organizational Development and Infrastructure (HRODI) Strand will roll out the **InsightED Mobile Application** nationwide.

InsightED serves as the dedicated mobile data collection arm of the Strategic Resource Inventory for Deployment Efficiency (STRIDE) Dashboard. It is designed to bridge the gap between our physical school environments and the digital databases used for strategic planning across governance levels in the Department. Its primary purpose is to streamline the process of capturing real-time, granular school infrastructure and resource data directly at the school level.

To ensure absolute data integrity and usability across diverse field conditions, InsightED is equipped with the following validated features:

- **Offline Capability & Auto-Sync:** Allows continuous data entry in remote areas without internet access, utilizing an "Auto-Sync" feature to automatically and securely upload queued records once connectivity is restored.
- **Geotagging:** Automatically captures precise GPS to verify that reports are unambiguously submitted on-site.
- **Photo Evidence:** Requires timestamped and watermarked photos to validate the actual physical status of infrastructure and asset inventory.
- **Smart Forms for Data Integrity:** Intelligently rejects invalid data at the point of entry and evaluates data consistency, prompting schools to revise entries to automate the rigorous data cleaning process.

**Together, the InsightED mobile application and the STRIDE Dashboard compose a harmonized data ecosystem.** Data submitted through the InsightED mobile platform shall sync with the STRIDE Dashboard, creating a seamless pipeline that enables the real-time monitoring of school human resource and infrastructure information.

This integration shall benefit the operation of the HRODI Strand through:

- **Creation of Unified Data System:** Eliminating fragmented data sources and the need for manual consolidation, the ecosystem vastly improves operational efficiency and establishes a unified baseline for all educational data.
- **Evidence-Based Decision Making:** Empowering decision-makers at all governance levels to precisely identify resource gaps and surpluses, ensuring the equitable distribution of human resources and infrastructure.
- **Targeted Interventions:** Utilizing geographic and hierarchical data visualization to allow Regional and Division Offices to easily pinpoint specific schools with the most critical congestion or repair needs.
- **Predictive Capabilities:** Leveraging continuous data collection through InsightED to fuel future predictive analytics, allowing the Department to forecast enrollment shifts, project budget requirements, and anticipate infrastructure damage risks before they escalate into emergencies.

**In line with this, the official rollout of the InsightED Mobile App will commence from April 1 to April 10, 2026.** All school heads of public elementary and secondary
